

THE 2025 JAPAN EXCHANGE AND TEACHING (JET) PROGRAMME

APPLICATION GUIDELINES – for German SEA Applicants

The Japan Exchange and Teaching Programme (hereinafter, Programme) seeks to enhance internationalisation in Japan by promoting mutual understanding between the people of Japan and those of other nations. The Programme aims to enhance foreign language education and promote international exchange at the local level through the fostering of ties between Japanese youth and foreign youth alike.

The Programme achieves its objectives by offering JET Programme participants (hereinafter, Participant(s)) the opportunity to serve in local authorities as well as public and private elementary, junior high and senior high schools in Japan.

The Programme is implemented by local authorities and other organisations (hereinafter, contracting organisation(s)) who appoint (hereinafter, “employ” for private school Participants) Participants in cooperation with the Ministry of Internal Affairs and Communications (MIC), the Ministry of Foreign Affairs (MOFA), the Ministry of Education, Culture, Sports, Science, and Technology (MEXT) (including the Sports Agency), and the Council of Local Authorities for International Relations (CLAIR).

The JET Programme began in 1987 with cooperation from governments of participating countries. Since then, over 79,000 people from 80 countries have participated in the Programme.

As the Programme has achieved an excellent reputation, participants are invited to Japan as honoured representatives of their countries. As such, they are expected to be responsible in all their activities, especially those concerning the promotion of mutual understanding between nations. It is therefore desirable that Participants be adaptable, mentally and physically capable of performing the job duties and have a deep interest in Japan.

Generally, Participants are appointed by prefectures, municipalities, and private schools, etc. as a member of staff for a 1-year period of participation on the Programme (hereinafter, period of participation). The cost of transportation from the Participant's origin to Japan, as well as remuneration, will be funded by the tax payers of Japan via the contracting organisation where the Participant is appointed. Because Participants serve as civil servants of their contracting organisations, they are required to observe rules and behave responsibly.

Withdrawal from the Programme after receipt of placement or early termination of appointment should be avoided as it causes numerous problems for contracting organisations, in addition to severely impacting the administration of the Programme itself.

1. TYPES OF POSITIONS AND DUTIES

1) Types of Positions

Applicants may apply here for the SEA (tabletennis) position (for CIR pls. refer to the other set of information).

Sports Exchange Advisors (SEA):

Participants engage in internationalisation activities through certain designated sports. SEAs are generally placed in relevant departments or facilities of contracting organisations.

2) SEA duties are carried out as specified by the supervisor at individual contracting organisations.

The following is a general outline of duties, though they may vary from one contracting organisation to another.

- (1) Assistance in sports instruction related affairs at the contracting organisation (e.g., cooperating or advising on planning, designing, and implementing sports projects).
- (2) Cooperation in sports training for promising local athletes.

- (3) Cooperation in sports training for employees of the contracting organisation and local residents.
- (4) Advising and collaborating on sports activities of local private groups or organisations engaging in international exchange.
- (5) Other duties as deemed necessary by the supervisor.

2. TERMS AND CONDITIONS

The terms and conditions of service will be determined by the contracting organisation which appoints the participant. The following is a general outline of the terms and conditions, though they may vary from one contracting organisation to another.

(1) Period of Participation

In principle, the period of participation is for one (1) year commencing on the day after the designated arrival date (3 august 2025).

All participants should bear in mind the following:

- (1) A participant's withdrawal from the Programme during the period of participation adversely affects school and local government administration as well as impedes the overall implementation of the Programme itself. All participants are therefore required to complete their period of participation in full.
- (2) If a participant violates the terms and conditions determined by their contracting organisation, their appointment may be terminated prior to the end of their period of participation.
- (3) In some cases, multiple appointment procedures may be required within this 1-year period of participation, such as in the case where a participant's contracting organisation is a local authority.
- (4) If the participant's work performance is of the required standard as deemed by their contracting organisation, it may be possible for the participant to renew the period of participation for an additional year. Under these circumstances, it is generally possible to renew participation up to a total of 3 years. However, if the participant's work performance, level of experience, and abilities are deemed to be of an exceptionally high standard by their contracting organisation, it may be possible to renew participation up to a total of 5 years.
- (5) Participants who arrive on a date after the designated arrival dates may have a period of participation that is shorter than one (1) year.

(2) Working Hours

Participants are expected to be at work approximately 35 hours a week, excluding lunch breaks. The breakdown of a Participant's working hours may differ among contracting organisations; however, Participants are generally required to work Monday through Friday between the hours of 8:30a.m. and 5:15p.m. Generally, Saturdays, Sundays, and Japanese national holidays are days off. However, there are many cases in which work duties, such as the schedule of practices or games, require changes in the normal schedule or require a Participant to work on Saturdays, Sundays, or Japanese national holidays. The number of paid holidays per year differs among contracting organisations, but in principle Participants are allowed at least 10 days.

(3) Remuneration

Remuneration per annum is approximately ¥4,020,000 in the first year of appointment, ¥4,140,000 in the second year, ¥4,260,000 in the third year. The above sums apply to participants who have worked for one full year. If a participant's period of participation in the Programme is less than one year, the remuneration amount will be prorated accordingly. In addition, in

the case where a participant who is deemed to have excellent work ability by the contracting organisation exceeds 3 years, the remuneration will be approximately ¥4,320,000 in both the fourth and the fifth year. This remuneration is a sufficient amount to cover average living expenses in Japan.

Participants are required to bear the cost of taxes in cases in which income and resident taxes are imposed.

Remuneration will be made in monthly payments. Participants may, upon completion of the Programme, be required to pay a portion of their of resident taxes that they would be subject to that year in one lump sum prior to leaving Japan.

Furthermore, in Japan, joining a mutual aid association (Kyōsai Kumiai) (equivalent to health insurance), contributing to the pension fund programme, and paying employment insurance are mandatory. A part of these costs is borne by the participant and deducted from the monthly post-tax remuneration each month on payday.

(4) Limitation on Profit-Making Activities

Participants, after reaching a full understanding of the motives and goals of the Programme, are expected to prioritise their duties as a participant and should refrain from engaging in other profit-making activities.

(5) Driving

Participants with a driving licence may be required to operate a motor vehicle as part of work duties for their contracting organisations. Costs associated with a motor vehicle may be required to be borne by the Participant.

In order to make preparations for appointment (e.g. living arrangements) go as smoothly as possible, the participant should respond promptly to all correspondence from the contracting organisation.

Additionally, alternates who are upgraded and become successful candidates/Participants may be required to submit a Certificate of Health again depending on the time they will travel to Japan.

- 1) If they have committed an inappropriate act or there is substantial reason to believe that they are likely to commit an inappropriate act.

- 7) If it becomes clear at a later date that they do not meet the eligibility criteria due to some reason attributable to themselves.
- 8) If they do not board the designated flight(s) with the exception of cases due to truly unavoidable circumstances, such as on humanitarian grounds.

8. ASSIGNMENT OF CONTRACTING ORGANISATION

Participants are required to work at the contracting organisation assigned by CLAIR. Contracting organisations are located all throughout Japan, and amongst them are regions that are not sufficiently equipped with health care facilities, public transportation, etc. Participants with special circumstances such as those listed below will be given special consideration, however there is no guarantee of an assignment near a participant's desired location. Only requests for special consideration as listed below that have been indicated on the application form will be taken into consideration. Any requests of changes after submission of the application, even in special circumstances, are not possible.

Special requests may be considered for instances in which:

- 1) A spouse applies to the Programme at the same time.
- 2) A spouse or other immediate family member(s) already reside in Japan, and a move would be impossible or cause great hardship.

9. ORIENTATION AND TRAINING

(1) Pre-Departure Orientation

Participants will be provided with written materials about the Programme along with Japanese language textbooks prior to departure for Japan. Additionally, a pre-departure orientation will take place prior to departure for Japan at each Participant's Interview Office. All Participants must participate in the pre-departure orientation.

Please note that there will be no pre-departure orientation for those participating from within Japan.

(2) Post-Arrival Orientation

Participation in the Post-Arrival Orientation is mandatory for all new Participants. Post-Arrival Orientation will provide training necessary for Participants to carry out their work duties in Japan.

(3) Training

CLAIR provides Japanese language courses which Participants can enrol in before or after arriving in Japan in order to improve their Japanese abilities as well as promote understanding of Japan through Japanese after returning home. Participants are also required to participate in any training designated as mandatory by the contracting organisation or CLAIR.

10. ACCOMMODATION

In principle, the Participant will be responsible for the accommodation arrangements and, as such, will subsequently be responsible for all associated costs incurred. The Participant may be required to pay the equivalent of 2 to 6 month's rent immediately after arriving in Japan in order to move into housing. Also, the contracting organisation may designate the Participants housing arrangements and therefore, Participants should consult with their contracting organisation in advance.

11. TRANSPORTATION TO AND FROM JAPAN

1) Travel and Other Expenses Related to Coming to Japan

All Participants must arrive in Japan on the designated date (German Participants travel in Group B: on 02 August, 2025; departure from a German airport (Berlin, Düsseldorf, Hamburg, Berlin, Munich, or Frankfurt)) and flight except for candidates who already reside in Japan as defined below in 11.2. Participants who do not board the designated flight will be disqualified from the Programme, with the exception of cases due to truly inevitable circumstances, such as on humanitarian grounds.

The cost of domestic transportation to the designated airport(s) in the Participants' home countries, fees incurred in obtaining documents necessary to travel to Japan, transit visas, extra baggage fees, and shipped luggage fees, will be the responsibility of the Participants.

Participants' contracting organisations will provide airline tickets from the airport designated in their home countries to Narita International Airport or Tokyo International Airport (Haneda Airport). Transportation costs from these international airports to the post-arrival orientation venue, accommodation costs during the post-arrival orientation, and transportation costs from the post-arrival orientation venue to the contracting organisation, will be borne by the contracting organisation according to their travel expense regulations. Furthermore, travel expense regulations are based on the most logical route and means of travel.

It is for these reasons that in the case a Participant withdraws their intent to participate on the Programme or is disqualified after receiving notification of their assignment, with the exception of cases due to truly inevitable circumstances, such as on humanitarian grounds, they must pay any travel and other costs, such as cancellation fees, that were incurred. These costs may include fees for the arrangement of travel within Japan or housing in the case the contracting organisation has made arrangements.

Cancellation fees for airline tickets will differ depending on the date that the cancellation of the ticket has been confirmed. In the case cancellation is confirmed 15 to 30 days prior to the designated departure date, the cancellation fee will be half the price of the airline ticket. In the case cancellation is confirmed 14 days or less prior to the designated departure date, the cancellation fee will be the full price of the airline ticket. Furthermore, Participants may be required to submit documents in order to determine if a case falls under "cases due to truly inevitable circumstances, such as on humanitarian grounds".

2) Participants Who Already Reside in Japan

Only Participants residing in Japan prior to participation on the Programme who already hold a status of residence other than "Temporary Visitor" and are able to change the status if necessary prior to the designated arrival date are permitted to participate from within Japan. It is the responsibility of the Participant to confirm whether a change will be permitted and carry

out the procedure for the change of status with the relevant Immigration Bureau of Japan office. If a change in status is permitted, Participants must indicate their participation from within Japan on the Reply Form and submit it to the Interview Office.

Furthermore, those residing in Japan with a “Temporary Visitor” status are not permitted to change their status of residence within Japan, and therefore must return to their home country, carry out procedures to obtain a proper visa from the Embassy or Consulate of Japan in that country, and enter Japan on the designated flight in order to participate on the Programme.

For Participants who already reside in Japan, the contracting organisation will bear travel costs only in the case where a Participant travels from the designated airport or railway station to the post-arrival orientation venue on the designated arrival date. Travel costs to the designated airport or railway station will be borne by the Participant. Participants who live within 100 kilometres of the post-arrival orientation venue will bear all travel costs to the post-arrival orientation venue.

With regard to transportation from the post-arrival orientation venue to the contracting organisation, Participants must travel in a group with other Participants who will be working in the same host prefecture or designated city. Travelling separately is not allowed. These travel costs will be borne by the contracting organisation according to their travel expense regulations.

3) Return Travel Costs

In the case Participants meet all of the guidelines listed below, the return travel costs both from the contracting organisation to an international airport in Japan and from that airport to the airport designated in their home country from which they originally departed will be borne by the contracting organisation according to their travel cost regulations.

Participants who participate from within Japan and meet all of the guidelines below are also eligible to have travel costs from the contracting organisation to the airport designated in their home country borne by the contracting organisation.

- (1) The Participant completes the period of participation.
- (2) The Participant does not enter into subsequent employment with a contracting organisation or a third party in Japan within 1 month after the completion of participation.
- (3) The Participant departs Japan to return to their home country no later than 1 month from the day following the completion of their participation.

4) Reimbursement of Travel Costs

A Participant who violates their contracting organisation's terms and conditions, such as by returning to their home country without reasonable cause, or is disqualified due to committing inappropriate acts, etc. after arriving in Japan will not only be responsible for the full cost of return travel to their home country, but must also reimburse any travel costs that the contracting organisation or CLAIR has already borne. In some cases, there may be other costs for which the Participant will be held responsible.

5) Obtaining a Visa

Participants must obtain a working visa from the Embassy or a Consulate of Japan in Germany, before the date of travel to Japan and enter Japan under the appropriate status of residence (“Skilled Labor” for SEAs) that permits work.

Family members accompanying a Participant (spouse or children) must submit official documents which prove legal marriage or parent-child relationship to the Embassy or Consulate of Japan and must carry out the procedures for applying and obtaining a Dependent's Visa. Please note that only legal spouses and children are eligible for Dependent's Visas. A fiancé(e) or common-law spouse, etc. is not eligible.

6) Participants Travelling with a Spouse or Family

In cases where the Participant is accompanied by a spouse or family, the Participant will be completely responsible for all the arrangements (travel, living, or otherwise) and fees incurred thereof.

12. AFTER COMPLETION OF THE PROGRAMME

Participants are strongly expected to play a role as a bridge between Japan, their place of appointment, and their home countries after their participation on the Programme. Former Participants have founded alumni associations in their home countries/areas and in Japan, named JET Alumni Associations (JETAA). JETAA carries out various activities at grass-root levels to promote friendships between Japan and the home countries of Participants. JETAA members are involved in activities such as information exchange among the members, welcoming Participants back to their home countries upon their completion of the Programme, introducing Japanese culture, and providing educational information about Japan. It is anticipated that Participants completing their participation on the Programme respond to the “After JET Contact Information Survey” sent by CLAIR with their post-participation contact information. Participants are also expected to contact the Embassy or Consulate of Japan nearest to the Participant’s residence (CLAIR for those residing in Japan), join a JETAA chapter and be actively involved in introducing Japan and promoting education.

13. USE OF PERSONAL INFORMATION

The use of personal information submitted by applicants during the application period is limited to necessary use by the Embassies or Consulates of Japan, Ministry of Internal Affairs and Communications (MIC), Ministry of Foreign Affairs (MOFA), Ministry of Education, Culture, Sports, Science and Technology (MEXT), CLAIR, contracting organisations including host prefectures/designated cities² and private contracting companies in charge of services related to the management of the Programme.
